EDUCATION

Amity University   Noida, India
Master of Computer Application   *Aug 2021 – Jul 2023*

Modi Institute of Management and Technology   Kota, India
Bachelor of Computer Applications   *Jul 2017 – Jul 2020*

PROJECTS

Portfolio
- This portfolio website masterfully illustrates my profound level of expertise, delivering an immersive online experience that brilliantly highlights a diverse array of skills, and distinguished accomplishments.
- The outcome is an exceptionally captivating and visually eye-catching platform which showcases my work and demonstrates capabilities with the utmost professionalism.
- Harnessing the power of JavaScript alongside the cutting-edge capabilities of the dynamic trio React, HTML, and CSS. This work exudes an extraordinary command and profound understanding of these pivotal web development pillars.

Tour Guide Portal for Domestic Tourists
- This Tour Guide portal offers features like user registration, secure and reliable login, dynamic state selection and an engaging interactive map powered by Google Maps API for precise and intuitive route finding.
- This innovative solution dramatically boosts convenience and cost-effectiveness to users to effortlessly delve into renowned destinations while conserving precious time and finances by completely eliminating the necessity for a human guide.
- Harnessing the power of HTML, CSS, MySQL, and JavaScript, the platform guarantees an effortlessly smooth and engaging user experience.

WORK EXPERIENCE

Kyndryl   Gurugram, India
Associate Technical Engineer   *Sep 2023 – Present*
- Administered Azure Virtual Desktop in Microsoft Azure, deploying applications, configuring services, and integrating data storage solutions to enhance system security, scalability, and data management efficiency.
- Performed Linux patching to ensure system security and stability, managing software updates, and minimizing downtime to maintain optimal performance and compliance with security standards.
- Implemented and managed Azure cloud solutions, overseeing account access and permissions to ensure secure and efficient cloud operations.

TCS iON   Noida, India
Web Developer Intern   *Jun 2022 – Aug 2022*
- During internship at TCS iON, developed a tour guide portal specifically for travelers with user registration and login features, state selection options by implementing map powered by the Google Maps API.
- This platform offers an exceptionally convenient and cost-effective solution for exploring renowned destinations. By reducing the necessity of human guides which optimizes user time and resources, making travel more efficient and enjoyable.
- Harnessed the power HTML, CSS, JavaScript and JSP, seamlessly integratig Google Maps API to support highly efficient route finding capabilities.

SKILLS

Languages: Java, JavaScript, SQL

Front End: React, HTML5, CSS3
